

One of the best kept secrets in alternative
fuels is right here in our own backyard

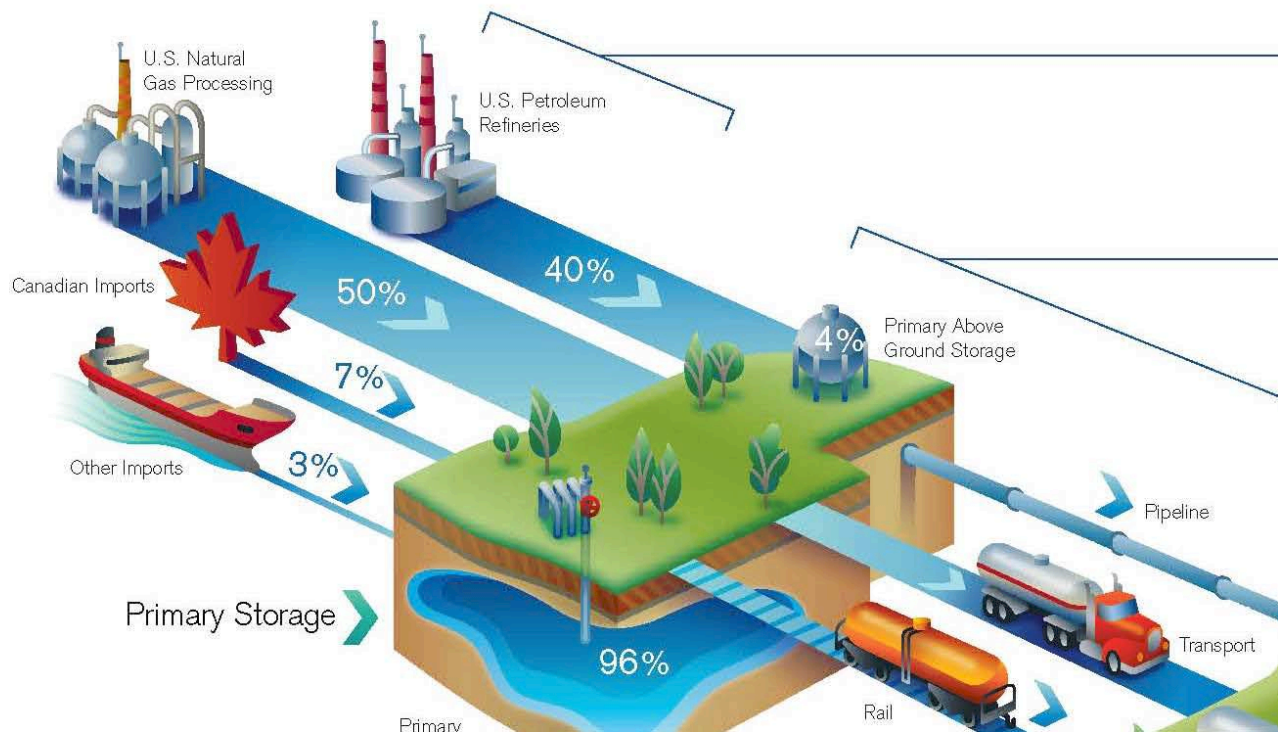

Why Propane?

- It's domestically produced
- It's environmentally-friendly
- Factory built vehicles & more aftermarket conversions coming available each day
- Incentives for public & private fleets
- Now more than ever it's readily available

90 % Produced in US, Over 1/3 in TX

1 Alt Fuel In World

- Over 10M propane vehicles worldwide
- More than 200,000 propane vehicles in US
- Nearly 10,000 propane vehicles in Texas

Factory Built Vehicle & Conversion Systems Available

Incentives for Vehicle & Mowers

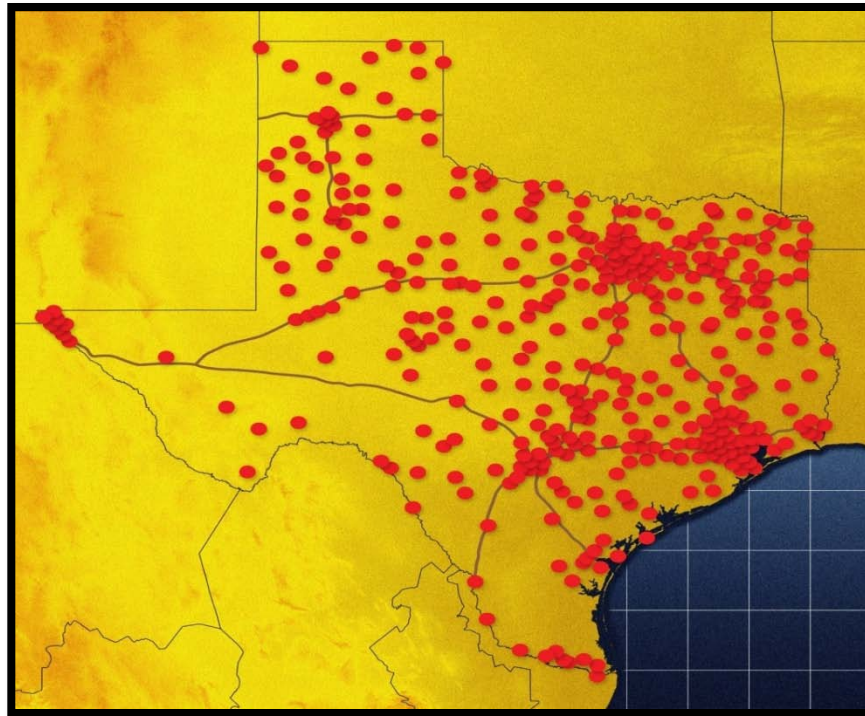

- Incentives for public & private fleets
- Through state agencies & non-profit organizations.

Propane Council of Texas

Propane: It's Readily Available
There are more than **850** stations
in Texas

PROPANE
TEXAS FUEL. TEXAS PROUD.

Where others already are

Where we are heading

- Clean Fuel USA through DOE grant is partnering with Conoco Phillips to add (8-10) 24 hr. refueling stations in the Houston area.

Retail Self-Serve Dispensers

- Fully functional – printer/card reader
- Retail design
- High frame, Commercial Style
- Gilbarco / Dresser Wayne gliders
- Nozzle boot with handle actuation
- Complete Retail Displays:
 - Total Sale
 - Volume
 - Price per gallon
- 12-18' hose with breakaway
- Tri-pod safety system

Fleets can have their own infrastructure installed

Alliance AutoGas Public Fueling Station at German Motor Werks in Asheville, NC

Fuel Management

- Site controller and mgmt software
- State of the art software in-dispenser
- Corporate Fleet cards
- All major credit cards-MC/VISA/AMEX
- Clean Fuel USA cards
- Complete reporting capabilities
- Web based interface
- Track tank inventory levels
- Centralized product, price, tax control
- Multiple price and customer levels

Infrastructure Incentive

- Taxable entities
- Eligible to claim 50% of infrastructure costs up to \$50,000 with IRS

MOWER REFUELING INFRASTRUCTURE

- Propane mowers hold 1 or 2 tanks with up to 15 gallons of fuel capacity
- Tanks are easy to switch, minimizing equipment down time
- Cylinder exchange programs are readily available
- Propane fuel infrastructure is inexpensive, and with over 3,500 propane marketers nationwide, supply is never an issue.

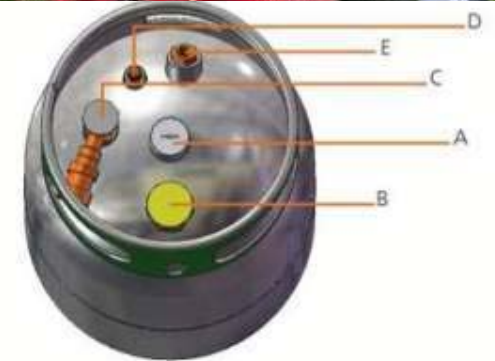

Mower cylinders

Applications: Propane-powered lawn mowers

Capabilities: 5, 8 & 10 gallon capacity

Features:

- Horizontal use only
- Vapor service only: Includes LPD (Liquid Prevention Device) attached to end of vapor tube
- Includes fill valve with OPD (Overfill Prevention Device)
- **Left-Hand** connections: male & female
- Green collar for mower cylinder identification
- Additional labeling stating horizontal use only
- All other benefits associated with aluminum forklift cylinders

- A. Float gauge (float shown; exterior read-out not visible)
- B. Liquid fill valve with OPD (Overfill Prevention Device)
- C. Vapor withdrawal tube/valve with LPD (Liquid Prevention Device)
- D. Fixed liquid level
- E. Safety relief valve
- F. OPD (Overfill Prevention Device)
