**Conversion Kit Warranty:**

ENVIROGARD offers Environmental Protection Agency (EPA) and California Air Resource Board (CARB) Certified Kits for the conversion of New or Used Engines to operate on propane for many different engine types and sizes from Kawasaki, Briggs & Stratton, and Kohler.

The Kits include the necessary changes to the engines to certify the engines on propane.

Patented Propane Tanks specifically designed for this application are recommended. The use of other non-qualified tanks will void all warranties.

ENVIROGARD warrants only the quality and workmanship of the parts included in the Kit for one year from the date of purchase. Envirogard system hoses are warranted for 90 days against defect. It does not warrant the application, the engine, the base mower, nor does it warrant the workmanship related to mower conversion to propane. In some cases the engine manufacturer may void their engine warranty.

Any part of the ENVIROGARD Propane Fuel System and associated modification assemblies that are part of the ENVIROGARD supplied mower modification Kit, and determined by ENVIROGARD to be defective will be replaced by Envirogard. The ENVIROGARD defective part must be returned to ENVIROGARD at end user expense. Utilization of other than ENVIROGARD supplied components will void the warranty. **This warranty does not cover the workmanship to install these kits nor does this warranty cover any liability, or consequential damages, that may be caused by inappropriately installed Kits.**
