

Date: October 23, 2009

The following is a list of companies that carry-out engine destructions and will provide documentation as per the contract requirements of the Clean Vehicles Program/Clean School Bus Program. Fleets are required to use a company on this list; if a fleet wishes to work with a different vendor, they may request that H-GAC add them. You are encouraged to contact H-GAC for any questions or concerns before having your engines destroyed.
