

2016 Transportation Technology Deployment Report:

Houston-Galveston Clean Cities

Expanded Edition

March 2017

U.S. Department of Energy

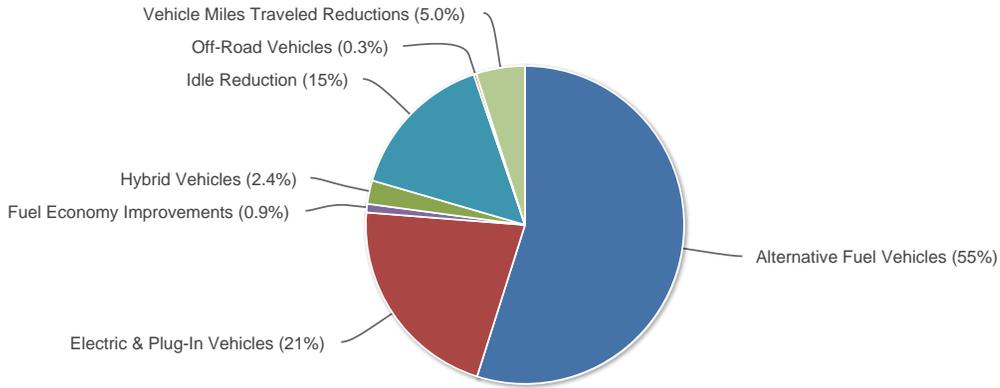

The U.S. Department of Energy's (DOE) Clean Cities program advances the nation's economic, environmental, and energy security by supporting local actions to reduce petroleum use in transportation. A national network of nearly 100 Clean Cities coalitions brings together stakeholders in the public and private sectors to deploy alternative and renewable fuels, idle-reduction measures, fuel economy improvements, and new transportation technologies, as they emerge.

Every year, each Clean Cities coalition submits to DOE an annual report of its activities and accomplishments for the previous calendar year. Coalition coordinators, who lead the local coalitions, provide information and data via an online database managed by the National Renewable Energy Laboratory (NREL). The data characterize membership, funding, projects, and activities of the coalitions. The coordinators also submit data on the sales of alternative fuels, deployment of alternative fuel vehicles and hybrid electric vehicles, idle-reduction initiatives, fuel economy activities, and programs to reduce vehicle miles traveled. NREL and DOE analyze the data and translate them into petroleum-use and greenhouse gas reduction impacts for individual coalitions and the program as a whole. This report summarizes those impacts for Houston-Galveston Clean Cities.

To view aggregated data for all local coalitions that participate in the Clean Cities program, visit cleancities.energy.gov/accomplishments.

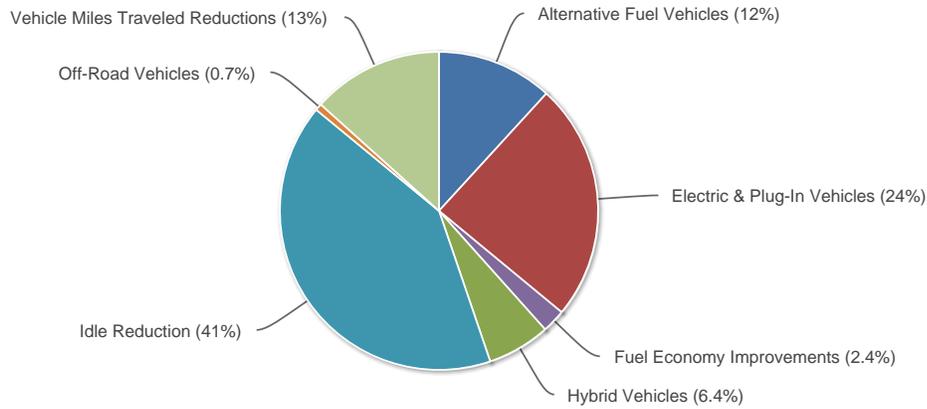

2016 Gallons of Gasoline Equivalent Reduced

15,263,614 gallons

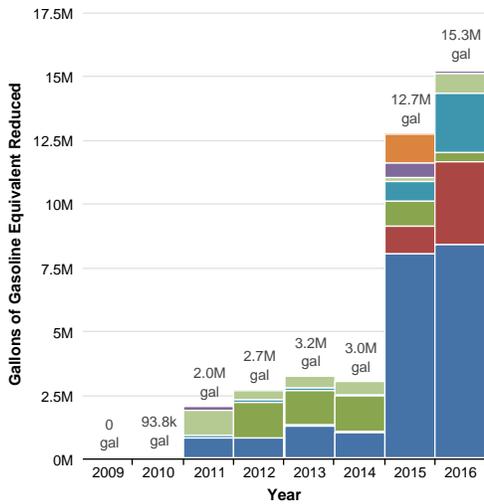

2016 Greenhouse Gas Emissions Reduced

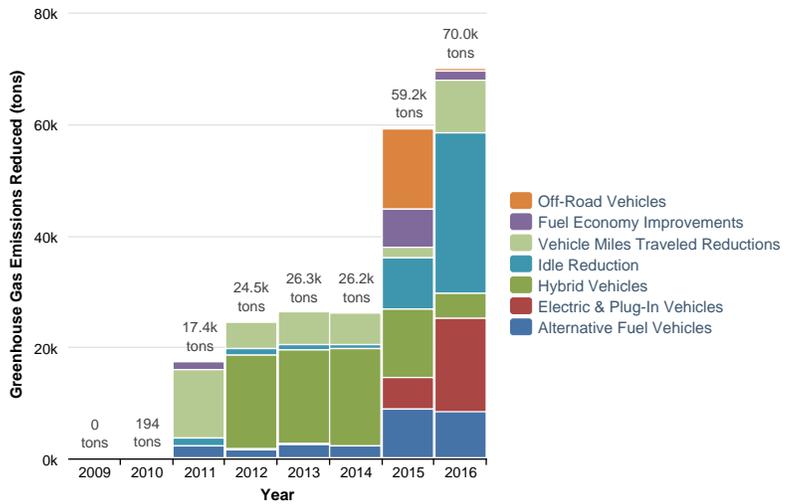

69,983 tons

Historical Gallons of Gasoline Equivalent Reduced

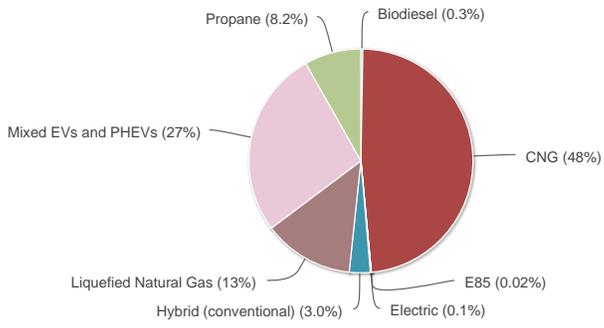

Historical Greenhouse Gas Emissions Reduced

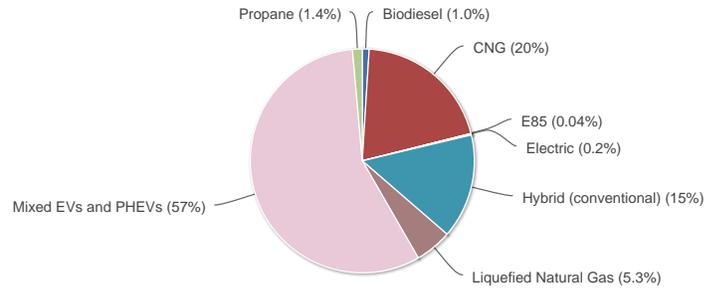

2016 Gallons of Gasoline Equivalent Reduced by Fuel Type for Alternative Fuel Projects

12,000,843 gallons

2016 Greenhouse Gas Emissions Reduced by Fuel Type for Alternative Fuel Projects

29,669 tons

Criteria Pollutant Emissions Reduced

Criteria pollutants are chemicals that have been linked to human health effects and therefore regulated in the Clean Air Act of 1970. The Clean Cities annual report calculates them using the same assumptions and default values as AFLEET 2016, with some adjustments to fit specific data inputs. They are quantified at vehicle tailpipes, as those are the emissions contributing to the regulated “ambient” air quality of a given city. This means that they omit emissions from sources such as electric power plants, refineries, and biofuel feedstock farms (where emissions are sufficiently removed from populations in order to minimize health effects). When a specific pollutant surpasses a given threshold for a given area, the area is considered to be in “nonattainment” for that pollutant. Nonattainment areas for given pollutants can be viewed at www.epa.gov/green-book. To learn more about what your emissions numbers mean, please take the Understanding Emissions or Emissions Compliance courses at [Clean Cities University](http://CleanCitiesUniversity.com).

Reductions by Fuel Type*	NOx	VOC	CO	PM10	PM2.5
Biodiesel	0 lb	0 lb	0 lb	0 lb	0 lb
CNG - Compressed Natural Gas	179,750 lb	2,795 lb	-1,149,021 lb	0 lb	0 lb
E85 - 85% Ethanol	0 lb	2 lb	0 lb	0 lb	0 lb
Electric (all-electric)	590 lb	55 lb	530 lb	4 lb	4 lb
Hybrid (conventional)	789 lb	2,364 lb	11,588 lb	0 lb	0 lb
LNG - Liquefied Natural Gas	88,566 lb	9,049 lb	-488,562 lb	0 lb	0 lb
Mixed EVs and PHEVs	17,787 lb	32,196 lb	246,337 lb	465 lb	447 lb
Propane	0 lb	0 lb	0 lb	0 lb	0 lb
Total:	287,481 lb	46,461 lb	-1,379,127 lb	469 lb	450 lb

* This table accounts for criteria pollutants from alternative fuel and hybrid vehicle projects only. It does not include VMT reduction, fuel economy, idle reduction, or off-road projects. Negative values indicate an increase in emissions.

COALITION

Houston-Galveston Clean Cities - TX

<http://www.houston-cleancities.org/>

Designated: 09/04/1997

Boundaries: Counties: Brazoria, Chambers, Fort Bend, Galveston, Harris, Liberty, Montgomery, Waller; Cities of Houston and Galveston

COORDINATORS

	Address	Telephone	Fax
Shelley Whitworth	3555 Timmons Ln, Ste 120 PO Box 22777 (77227) Houston, TX 77027		
Number of coordinators			1
Coordinator(s) hours per week on Clean Cities			30 hours
Other staff hours per week on Clean Cities			20 hours
How long have you been the coordinator?			1 years

OPERATING INFORMATION

Host organization	Council of Governments (COG), Municipal Planning Organization (MPO), or Regional Planning Commission (RPC)
-------------------	--

Stakeholders

Number of stakeholders	130
Number of private stakeholders	110
Does the State Energy Office provide any financial support to the coalition or stakeholders?	No
How would you rate the quality of the data on your survey?	Excellent
How do you obtain most of your data for the survey?	Online questionnaire to stakeholders (SurveyMonkey, Google Forms, etc), Phone calls to stakeholders
Has your coalition registered with www.grants.gov ?	Yes

2016 Outside Funding

Stakeholder dues collected	\$0
How much funding is obtained from other sources to cover coalition operating expenses?	\$200
Non-DOE or ARRA grant and matching funds spent in 2016	\$0
Total non-DOE or ARRA funding in 2016	\$200

VEHICLE & FUEL INVENTORY

Alternative Fuel & Vehicles

Fleet/Station Name	Vehicle Class	Fuel	Number of Vehicles	Fuel Used	GGE Reduced	GHG Reduced
Air Products	Heavy-Duty	CNG	5	100% of time	17,527 gal	14.8 tons
<p>Miles traveled per vehicle: 65,897 mi Average vehicle fuel economy: 5 MPGde Market: General/Unknown Vehicle type: Truck: Semi-trailer Percentage from coalition: 25% National Clean Fleets Partnership: No</p>						
Alvin ISD - Buses	Heavy-Duty	Propane	105	100% of time	345,421 gal	135.4 tons
